EDUCATION

• **Bachelor of Engineering in Mechanical Engineering**   *2019-2024*

Kwara State University, Malete, Ilorin   *Class:* **2:1**

EXPERIENCE

• **Frontend Developer**   *January 2023-May 2023*

Sublime Designs and Constructions

–   Developed a responsive website using React, optimizing performance and usability across various devices and screen sizes.
–   Collaborated closely with stakeholders to gather requirements, iterate on designs, and incorporate feedback throughout the development process.
–   Utilized version control systems like Git to manage codebase changes and facilitate collaboration with team members.

• **Frontend Developer Intern**   *July 2023-August 2023*

Codsoft Solution

–   Developed and implemented responsive web designs using HTML, CSS, and JavaScript to create visually appealing and user-friendly websites, enhancing user experience.
–   Integrated MongoDB database solutions for storing and retrieving user information, streamlining backend data management processes and optimizing the overall performance of the web applications.

SELECTED PROJECT

• **Vertex Bank**

Location based Banking System Website - Developed with Node.js, MongoDB, and Location Tracking.

–   Built a secure banking platform that integrates **National Identification Number (NIN)** for user verification and enhanced security.
–   Implemented location tracking for transactions to prevent fraud and unauthorized activities.

https://vertexbank.netlify.app/

• **Sublime**

Design Agency Website

–   Developed a feature-rich website showcasing the agency's services and portfolio.
–   Ensured cross-device performance and usability.

https://sublimeconstruct.com/

• **ImageRaft**

React Photo Gallery Website - Used Pexels API to Get Pictures for Download.

–   Built a responsive website with React, optimizing for performance and usability across devices.
–   Worked with stakeholders to gather requirements, refine designs, and integrate feedback.

https://topghostly.github.io/imageraft-site/

• **AgentMeet**

Agent Website - Created with Node.js and MongoDB Database for Rental.

–   Designed and developed a web application using Node.js and MongoDB that allows agents to create an account and

publish available rental properties for prospective tenants.
– Implemented secure authentication and authorization features using JWT tokens.
– Built a RESTful API using Express.js to handle CRUD operations for rental properties.

TECHNICAL SKILLS AND INTEREST

Languages: JavaScript, C++, Python, HTML, TypeScript
Libraries/Framework: Node, React.js, Next.js, Mongoose, Bootstrap, Tailwind, Express.js, GSAP, Three.js
Cloud/Databases: MongoDB, Firebase, MySQL, PostgreSQL
Tools/Platforms: Git, GitHub, Framer, Adode Photoshop, Adobe Illustrator, Figma
Areas of Interest: Web Development, Machine Learning, Cloud Security, 3D Animations

CERTIFICATION

• **Backend Engineering and APIs** *Issued on July 2, 2023*
FreeCodeCamp
